1. Note from the PRESIDENT OF THE MANAGEMENT BOARD

Dear Shareholders,

PLN 47 million (a year-on-year increase by 27 per cent) net profit, with sales of PLN 1.7 billion (a year-on-year increase by 2 per cent) – this is the Unibep Group's performance for 2021. This is the Group's historic performance achieved in extremely difficult and challenging conditions for business. It is worth noting that the Group improved its cash position – there was PLN 271 million in our accounts at the end of the year (a year-on-year increase by approx. 3 per cent) – and built a solid portfolio of orders in all segments of its activity: the construction and infrastructure part of our businesshas received have orders worth approx. PLN 3.5 billion.

Last year was a time of hard work. We will all remember it as an extremely challenging time due to the scale of COVID-19 cases nationally and internationally, but we also had to deal with the unavailability of materials and services, soaring prices and changes in the labour market. Despite dynamic market changes, our diversified group of companies made decisions that affected both our current operations and our business in the coming years. I will comment on the situation that is currently taking place, namely the war behind our eastern border, which is having a major impact on the economy of the whole world, and thus also on the Unibep Group's operations, later in this letter.

Property development and residential and commercial construction brings profits

The record level of the Unibep Group's profits is mainly due to the historic performance in the property development segment, delivered by the Unidevelopment Group. Our development business sold a total of 921 residential units in 2021 and generated a gross margin of nearly PLN 65 million. Unidevelopment SA bought land in locations that include the Tri-City – the next market for expansion of our development business after Warsaw, Poznań and Radom. The Group is very well prepared for the coming years – the properties in its portfolio are sufficient for the construction of approximately 5,600 housing units.

Our residential and commercial construction business closed 2021 with the expected results, despite rising material prices and significant wage pressure. Unibep SA is currently working on about 40 contracts in Poland. Projects carried out by this business segment are becoming more and more diversified – we build housing estates mainly for private investors in Warsaw, Łódź, Cracow or Poznań, but we also construct other residential and commercial buildings almost everywhere in Poland (Warsaw, Białystok,

Bielsk Podlaski, Grajewo, Orzysz). in the construction of the barrier, difficult to predict what the next few The segment's order portfolio for chose our tender due to the price of- months might bring us. lish construction sites, which may have an impact on project implementation schedules. It is also important to bear in mind the high inamong employees.

Most of our contracts at Unibep Group are signed with private investors, both in Poland and abroad, who understand the situation and including contracting entities for investments in the infrastructure segment, concerning changes resigning new contracts. We believe 2021 was the second year in which that a compromise can be reached that satisfies both sides.

> I would like to emphasise that opted schedules and assumed margins, which is very difficult in this

> Our overarching goals for 2022 ghest quality of products and services, to care for the health and safety of our employees, and to manage crisis situations effectively.

> Finally, I would like to emphasistable, has sound foundations regarding its operations in each segment and is comprehensively prepared for various options of action.

> I encourage you to read the report for 2021.

> > Leszek Gołąbiecki President of the Management Board of Unibep SA

this segment of Unibep Group's business can be expected to grow. Budrex also carries out projects for railways or local authorities.

The Unibep Group pursues its business objectives with respect for the environment and with future generations in mind while optimally balancing its business activities and progressive climate change. The Group endeavours to minimise the impact of its investments on the surrounding area when carrying out a particular construction project. Each project is carried out based on the provisions of environmental decisions, but also on internally established procedures, which aim at ensuring environmentally safe conditions for the execution of construction work.

Unidevelopment S.A., a development company from the Unibep Group, achieved a record result in 2021 - with sales of PLN 285 million, net profit amounted to approximately PLN 42 million. The developer

The goal of the Unibep Group is to Approximately 80% of the Group's consistently increase efficiency in each area of its activity, using methods such as the effect of synergy between businesses. Diversified operations provide the Group with a stable financial position and allow it to consistently build shareholder value.

Segment RESIDENTIAL AND COMMERCIAL CONSTRUCTION Unibep SA

General contracting is carried out by the Parent Company Unibep SA. The main pillar is residential construction. The company also implements projects associated with commercial construction (hotels, office buildings, retail and service buildings). The segment's operations are conducted in Poland (GC Poland), with construction projects also carried out in Belarus and Ukraine (GC Export).

Segment MODULAR CONSTRUCTION Unihouse SA

Production of timber frame modules for the construction and assembly of multi-family and public buildings for the Norwegian, Swedish, Germany and Polish markets. The projects are carried out by Unihouse SA, which is a pioneer on the Polish market in the production of modern sustainable timber frame modular buildings.

Segment INFRASTRUCTURE Unibep SA, Budrex Sp. z o.o.

Road and bridge construction in north-eastern Poland, carried out by the Infrastructure Branch of Unibep SA and Budrex Sp. z o .o. (a highly specialised company building bridges, viaducts and road culverts in almost all of Poland).

Segment PROPERTY DEVELOPMENT ACTIVITY Unidevelopment SA Special purpose vehicles

The activity conducted through Unidevelopment SA. Currently projects are being carried out in Warsaw, Poznań, Radom, and soon also in the Tri-City.

Segment ENERGY AND INDUSTRIAL CONSTRUCTION Unibep SA

Unibep SA decided to develop a new business segment, which is a response to the needs related to the necessity of transforming the Polish economy towards a zero- and low-emission model, focusing on the tenets of green economy, and includes such operations as the construction of incineration plants, co-generation, distributed district heating, commissioning, system cleaning.

EVENT TIMELINE

Below are some of the events which took place in 2021.

January

• On 18 August 2021, the Polish premiere of the new work by Prof. Leon Tarasewicz, one of the most fa-

place in the production hall of the Unihouse SA Modular House Production Plant in Bielsk Podlaski. The painting was on display in the Polish Pavilion year after the construction began, a during the Expo 2020 World Exhibition in Dubai. The size of the painting is 13.5 by 3.4 metres, resulting in a total area of almost 46 square metres. This is the largest work by Professor Tarasewicz that he has ever painted on canvas. From the beginning of August - for almost two weeks - the master from Waliły spent several hours in the production hall of Unihouse, bringing his vision of the work to life.

On 20 August 2021, Unihouse SA was informed that on 19 August 2021 the consortium ARGE Kernen Beinsteiner Straße consisting of AH Aktiv-Haus GmbH with its registered office in Stuttgart and WOLFF & MÜLLER Hoch- und Industrie-bau GmbH & Co. KG Zweigniederlassung Modulares Wohnen with its registered office in Stuttgart, signed a contract for the implementation of the project called "Kernen" in Kernen, Germany, using modular technology.

September

On 9 September 2021, Unibep SA entered into a contract with Postep Property Sp. z o.o., with its registered

mous contemporary painters, took istered office in Warsaw, for the implementation of a housing project at Postępu Street in Warsaw.

> On 9 September, less than a symbolic topping out ceremony was held at the Rezydencja Iwicka housing estate. This means that the construction work has been completed and the buildings have reached their target height.

> The grand opening of the largest and most modern logistic centre in the dairy industry, constructed for Spółdzielnia Mleczarska Mlekovita (Mlekovita Dairy Cooperative), took place on 24 September 2021. The general contractor for the project was Unibep SA.

> On 30 September 2021, a topping out ceremony was held for the project called the Copernican Revolution Lab (part of the Copernicus Science Centre) in Warsaw.

October

From 18 to 25 October 2021. Unibep SA was a partner of the 70th anniversary of the Faculty of Construction and Environmental Sciences of the Białystok University of Technology. The celebrations included the 52nd Scientific Conference on Engineering of Construction Projects, special meetoffice in Warsaw, owned by YIT DE- ings with students and announcement VELOPMENT Sp. z o.o., with its reg- of the results of a competition for the

best investment projects carried out in north-eastern Poland.

On 26 October 2021, the Porosły Junction near Białystok, a project carried out by the Infrastructure Branch of Unibep SA, became the winner of the "Construction of the Year 2019-2020 in the north-eastern region" competition. The construction of the road junction in Porosły won in the category "Transport infrastructure facilities with a length of the main roads from 5 km".

On 29 October 2021, Unibep SA signed a contract for the performance of the second stage of the housing project called "SOHO" at Żupnicza Street in Warsaw. The contracting entity is Yawa Sp. z o.o. 4 Sp. k. with its registered office in Warsaw, a company belonging to Yareal Polska Sp. z o.o.

November

On 5 November 2021, a cornerstone laying ceremony was held for the project Smartti Mokotów in Warsaw.

On 19 November 2021, Unihouse SA entered into a contract for the performance of the project called "Finnsta" in Bro Kommun near Stockholm, Sweden, using modular technology. The contracting entity is Markarydsbostader AB, Stockholm, an entity owned by Hembla AB, with its registered office in Stockholm.

• On 26 November 2021, the Feliks Nowowiejski Academy of Music in Bydgoszcz, selected the tender submitted by Unibep SA for the implementation of the project called "Construction of the campus of the Feliks Nowowiejski Academy of Music in Bydgoszcz with internal and external infrastructure at 9-11 Chodkiewicza Street in Bydgoszcz" as the most advantageous. The contract was signed on 24 January 2022.

December

• On 1 December 2021, a cornerstone laying ceremony was held for the Przystanek Targówek project at 6 Kuflewska Street. This is the first construction project carried out for the investor RSM PRAGA – a cooperative operating in the market for 50 years and managing nearly 215 buildings.

• On 14 December 2021, a Unidevelopment Group company signed a package of preliminary agreements for the purchase of properties located in Gdynia's Chylonia district.

• Nearly PLN 42 million gross – this is the value of the contract signed on 14 December 2021 by Energetyka Cieszyńska Sp. z o.o. with Unibep SA. The contract concerns the adaptation of the heat source at Energetyka Cieszyńska to current environmental regulations. This is the first contract of Unibep SA in the energy construction segment.

• On 16 December 2021, a company belonging to the Unidevelopment Group signed a preliminary agreement with a joint-stock company with its registered office in Częstochowa concerning the acquisition of the right of perpetual usufruct of properties constituting the buildings of the former "Stary Browar", located in Częstochowa in the area of Ogrodowa Street.

On 17 December 2021, Unib-

ep SA received information from the Plenipotentiary of the Commander-in-Chief of the Polish Border Guard for the preparation and implementation of the state border security about the selection of the tender submitted by the consortium consisting of: Unibep S.A. [Consortium Leader] and its subsidiary Budrex sp. z o.o. [Consortium Partner] for the implementation of the third and fourth part of the task called "Construction of state border security installations". The contracting entity is the State Treasury - Commander-in-Chief of the Polish Border Guard with its registered office in Warsaw. The tender concerns the design

and construction of a physical barrier on the Polish-Belarusian border in the Podlaskie Voivodeship, along two sections with a total length of 80.7 km. The contract was concluded on 4 January 2022.

• On 20 December 2021, Unibep SA entered into the first implementing agreement under the Swedish housing programme "Allmänyttans Kombohus" for the performance of the project called "Skattegården" in Linköping, Sweden, using modular technology. The contracting entity is AB Stångåstaden, a municipal company based in Linköping, Sweden.

In 2021, the company identified constraints in the availability of mic increase in the prices of strategic materials used during production – structural timber. Recently, it has also had to contend with rising transport prices and closed markets (Norway). The company is happy cation into theNorwegian, German, Swedish and Polish markets.

Liquidity ratios are at a safe level. The Group's situation with respect to cash flow is stable.

The 2021 performance shows stability in the Group's general administrative costs, although they increased year-on-year. The systematic

general administrative costs to reve-

The main factors underlying the performance for 2021:

- building a historic order portfolio in terms of sales for 2022 with potential for 2023 in the field of residential and commercial construction in the domestic market.
- good relations with Investors based on timeliness and workmanship standard,
- larusian market due to the unstable social and economic situation in that country.
- settlement of the project implemented on the Ukrainian market in accordance with the assumptions,
- markets,
- · implementation of major infrastructure projects,
- timely and budget-compliant execution of own development projects and projects carried out in the form of joint ventures,
- acquisition of land for future development projects and building an offer for new business markets,
- diversification of activities in the field of modular construction and winning contracts from four markets (Norway, Sweden, Germany, Poland),
- incomplete utilisation of the production and sales potential of modular construction related to postponements in signing contracts with contractors,
- disrupted supply chains, signifi-٠ cant increases in transport costs resulting in lower productivity and efficiency,
- budgetary discipline, strict cost and cash control in the execution

of contracts in each of the businesses,

- consistent supervision of the planning and settlement of the Group's administrative costs, continuous supervision of fixed costs,
- continuous improvement of production and organisational processes in all segments of the Group, including the back office,
- good liquidity, access to external sources of financing,
- continuous improvement of processes with the use of IT tools.

In addition to the internal factors, external factors were equally important for the company's performance. The key external factors include:

- the launch of a very large number of private (development) projects, suspended in previous periods,
- an increasing number of public sector tenders in residential and commercial and infrastructure construction,
- continued strong price competition on the domestic market (residential and commercial and infrastructure construction).
- a huge increase in the prices of subcontractors, materials and labour,
- an increasing shortage of workers and engineering staff,
- the persistence of the Covid-19 pandemic, operating during a period of increased sanitation regime and therefore the uncertainty of the current and future situation,
- high NOK exchange rates, rising interest rates, record inflation.

The Investment Agreement was terminated in view of its timely performance and settlement by the parties, i.e. completion stered office in Warsaw (entered of the joint development project. in the National Court Register As a consequence of the above, an on 13 July 2021), UNI 9 spółka agreement was concluded between UNIDEVELOPMENT SA (Seller 1), Challange Eighteen spółka z ograniczoną odpowiedzialnością (Buyer 1), Gaston Investments spółka z ograniczoną odpowiedzialnością (Buyer 2) and Smart City spółka z ograniczoną odpowiedzialnością (Seller 2), on the basis of which Seller 1 sold to Buyer 1 all the rights and obligations of the Limited Partner, and Seller 2 sold to Buyer 2 all the rights and obligations of the General Partner in the company "Smart City spółka z ograniczoną on 1 June 2021), UNI 12 spółka odpowiedzialnością" Spółka komandytowa.

3. Redemption of investment certificates of UNIDE FIZ AN

On 31 March 2021, the final redemption of all investment certificates of UNIDE FIZ AN took place. Thus, all liquidation activities were completed and an application was filed to remove the fund from the Register of Investment Funds.

On 31 May 2021, the District Court in Warsaw, 7th Civil, Family and Registry Department, Registry Section, issued a decision to remove the UNI-DE FIZ AN fund from the Register of Investment Funds.

4. Entry of JB Investments SCSP into the rights and obligations of Wiepofama S.A. as part of the FAMA project

Pursuant to the Agreement concluded on 23 April 2021 between Unidevelopment S.A., Wiepofama S.A., Fama Development sp. z o.o., Fama Developemnt spółka z ograniczoną odpowiedzialnością sp.k. and JB Investment Société en Commandite Spéciale (S.C.Sp.) (hereinafter "JB Investment SCSP") (hereinafter the "Agreement"), Unidevelopment S.A., Fama Development sp. z o.o. and Fama Development spółka z ograniczoną odpowiedzialnością sp.k. agreed to the

Agreement on 23 April 2021 incorporating the change of the party so that, with the exception of provisions of a historical nature, JB Investment SCSP entered into the rights and obligations of Wiepofama S.A. On 30 April 2021, a relevant amendment to the articles of association of Fama Development spółka z ograniczona odpowiedzialnością sp.k. was made. Thus, JB Investment SCSP became a party to the Investment Agreement in place of Wiepofama S.A.

5. On 8 October 2021, a change of the general partner in Lykke UDM spółka z ograniczoną odpowiedzialnością S.K.A. was entered in the National Court Register - UDM sp. z o.o. ceased to be the general partner and was replaced by Szcześliwcka sp. z o.o. (new general partner); the name of the company was also changed to Lykke Szczęśliwcka spółka z ograniczoną odpowiedzialnością S.K.A.

6. On 20 October 2021, the dispo-

into an addendum to the Investment the general partner in MD Inwestycje sp. z o.o. Monday Małe Grabary sp.k. took place; Idea sp. z o.o. (legal successor of MD Inwestycje sp. z o.o.) sold all the rights and obligations of the general partner to which Idea sp. z o.o. was entitled under its share in MD Inwestycje sp. z o.o. Monday Małe Grabary sp.k. to Szcześliwcka sp. z o.o.; as a result of the above-mentioned sale, the general partner in MD Inwestycje sp. z o.o. Monday Małe Grabary sp.k. became Szczęśliwicka sp. z o.o. Subsequently, also on 20 October 2021, the articles of association of limited partnership MD Inwestycje sp. z o.o. Monday Małe Grabary sp.k. were amended; amendments to the articles of association of the limited partnership included changing the name of the company to Szczęśliwicka spółka z ograniczoną odpowiedzialnością Monday Małe Grabary sp.k. In addition, on the same day a resolution was passed to dissolve sal of the rights and obligations of Szczęśliwicka spółka z ograniczoną

odpowiedzialnością Monday Małe Grabary sp.k.

7. On 19 November 2021, District Court Poznań-Nowe Miasto and Wilda in Poznań, 8th Commercial Division of the National Court Register registered the transformation of "Fama Development spółka z ograniczoną odpowiedzialnością" spółka komandytowa into a company under the name Fama Development spółka z ograniczoną odpowiedzialnością spółka jawna.

CHANGES IN THE GROUP'S STRUCTURE AFTER THE BALANCE SHEET DATE

1. On 4 February 2022, Szczęśliwicka spółka z ograniczoną odpowiedzialnością Monday Małe Grabary sp.k. was removed from the National Court Register.

In 2021 and after the balance sheet date there were no significant changes in the management principles of the Group or the Parent Company.

3.3. PROCUREMENT INFORMATION

The procurement of materials and services is based on internal procedures governing the area related to quality management.

Responsibility for the procurement of services as part of construction projects lies mostly with the project managers directly involved in supervision over implementation of construction contracts. The procurement of services is each time supervised by the directors responsible for the market or at a higher level, depending on the scale of the order.

The procurement of construction materials is a separate process developed and improved within the Group and the Parent Company. Materials are divided into categories. Depending on the category, responsibility for the procurement process, beginning with demand, through enquiries, negotiations to the signing of the contract and monitoring of its implementation, rests with the site management, market management, Central Procurement Office, with the involvement of the Management Board and the support of the Legal Team. The Central Procurement Office plays an important and growing role here. Central procurement of key materials (steel, concrete, milled rock, wool, etc.) has a positive impact on production costs. One of the tasks of the Office is also the continuous monitoring of prices on the market.

An important element is maintaining continuity in the supply of strategic construction materials.

In the reporting period, the Parent Company or the Group was not dependent on any supplier of materials and services. There were no suppliers with a share in purchases above 10%.

The price risk related to procurement is described in Section 8.1. Description of risks and threats.

The development activities carried out within the Parent Company and the Group in 2021 and simultaneously affecting operations in 2022 and subsequent periods include:

- developing and strengthening competences in the new business segment of energy and industrial construction, strengthening structures in this segment, expanding the area of operation,
- activities aimed at diversifying activities within all Unibep Group businesses,
- building strong local markets within residential and commercial construction based on good local staff with the challenge to bind them to the Unibep Group culture,
- working on programmes related to recruitment, retention and development of staff; development of incentive systems, maintaining the position of an attractive employer,
- developing programmes aimed at digitalising the Group's processes,
- continuing efforts aimed at promoting BIM (Building Information Modelling) technology,
- continuing activities aimed at strengthening supervision and improving efficiency with a process approach to the implementation of construction projects (from bidding to warranty service) construction of an improved model of the controlling process as part of executed construction contracts,
- building the know-how across the entire Group and using good experience in optimising processes related to the execution of individual contracts,
- implementing investment plans aimed at increasing the production potential and improving the quality of products and services within modular construction and infrastructure,
- organising a base and implementation structures in new markets as part of infrastructure activities,
- developing a base and building competences making it possible to maintain good quality of production within modular construction,
- developing a base of suppliers of materials and services that mitigate the risks of disrupted supply chains,
- building a land bank as an important element of Unidevelopment SA's operations in a changing environment, acquiring investment land in new regions of the country,
- undertaking joint activities of the Group's businesses enabling synergies to be exploited, allowing costs to be optimised or market opportunities to be seized,
- further developing quality management systems in UNIBEP branches,
- testing partial robotisation of back office processes,
- continuing work on product standardisation and improvement of Unihouse SA's technology,
- working on the preparation of an automation model for the production of Unihouse SA products,
- implementing assumptions and complying with requirements related to ESG programmes.

4. Market AND PROSPECTS FOR THE FUTURE

.1 CURRENT ECONOMIC SITUATION AND FORECASTS

Situation in 2021

#

After a decline in GDP of more than 2% in 2020 according to European Commission estimates, despite successive COVID-19 waves and disruptions in supply chains, Gross Domestic Product growth in 2021 in Poland was around 5.7%. The main driver of growth was private demand, clearly revived with the lifting of further COVID-19 restrictions. Preliminary data for 2021 also indicate a significant recovery in industry resulting in increased investment and inventory levels. Inflation in Poland in 2021 is estimated to be around 5.2% (3.7% a year ago) mainly due to rising prices of services and food.

2021 in the Polish construction sector was marked by a moderate downturn in investment activity in the public segment (i.e. in the transport infrastructure segment and in local governments), which clearly lagged behind construction activity in the private segment (i.e. in the residential, industrial and logistics property segments; investment stagnation still persisted in the office segment).

The biggest challenge for the construction sector in 2021 was the unprecedented rise in material prices. Reasons for increased prices of materials include: expensive raw materials, disrupted component supply chains, record electricity prices, weak Polish zloty and high demand for materials. The construction sector is highly sensitive to economic fluctuations and changes in the political and legal environment.

Forecast for 2022

According to the European Com- tween 2023 and 2024. mission, the Polish economy will grow at a rate of around 5.5% in wing signs of a deeper slowdown, 2022. Strong private consumption which could contribute to falling reinforced by a favourable labour prices of basic raw materials such market situation and tax policy are as aluminium and copper. It is imexpected to remain the main drivers portant to bear in mind that high of growth. Inflation is estimated to remain high, especially in Q1 2022. For the year as a whole, it is assumed to be around 6.8%. A significant factor adding uncertainty to for manufacturers will continue in any 2022 forecast is the war in Ukraine. As of today, there are no reliable on rising prices of project impleforecasts and analyses to clearly as- mentation. PROSPECTS AND STRATEGIC DIRECTIONS .2 OF THE GROUP'S DEVELOPMENT

As ever, the strategic development objective of the Parent Company and the Unibep Group is to systematically increase its value.

The 2021 results presented in this report reflect the market conditions that existed during the period, including fluctuations in material prices, availability of subcontractor services and the impact of the Covid-19 coronavirus epidemic on ongoing operations.

We did not experience any significant downtime in 2021, either at construction sites or at our modular house production plant. However, the Covid-19 situation certainly has an impact on the efficiency and productivity of our businesses. Thus, the Group takes a number of steps to ensure smooth operations. This includes aspects relating to disrupted supply chains, price changes, the political and economic situation in all our markets and the state of affairs relating to the pandemic situation. Further details on the potential impact of Covid-19 on the operations of the Issuer and the Unibep Group are provided in Section sed on the organic development of a 6.4 Other significant events.

outbreak of war in Ukraine is important for the entire Unibep Group as well as the entire construction sector is The risk of adverse events, such as the lack of materials and an increase in their prices, an increase in transport costs, an increase in the ment segment in the Unibep Group, costs of maintaining facilities, may pose challenges to the Group as well as all participants of the ongoing processes and construction projects.

Strengthening the Group's position in all segments of its operations and gaining competence in the necessary areas, diversifying its activities, implementing projects in new markets - these are the unchangeable directions of actions defined and implemented by the Unibep SA's staff and the entire Unibep Group.

This involves the guidelines issued by the Supervisory Board in Q4 2021. The guidelines concern two areas. The first is the creation of a new business segment in the form of ener-

From the perspective of the Unibep Group, individual companies and each business, cash flow is important. Awareness of this allows the Group as a whole to manage its cash effectively and strengthen its position as a reliable partner for its financial partners. In addition, it is an important criterion when assessing the possibility of development and implementation of investment plans and proper management of resources.

RESIDENTIAL AND COMMERCIAL **CONSTRUCTION** SEGMENT

Residential and commercial construction is carried out by the Parent Company Unibep SA. It covers the territory of Poland and Eastern Europe (Belarus, Ukraine). It is the Group's largest business segment generating approximately 50% of revenue. On the domestic market, the company specialises mainly in residential construction. However, as a result of activities aimed at diversification of operations in recent years, retail and service, public utility and military construction has become an increasingly important part of our business.

For years, Unibep SA's position in the central Polish market has been stable and well-established, which is confirmed by numerous rankings prepared by experts and industry institutions. In the domestic market, the company specialises mainly in residential construction, which is focused in Warsaw and Poznań, but

In 2021 we concluded a contract for the construction of a complex of buildings with accompanying infrastructure for the needs of the Military Unit in Wegorzewo (PLN 128.9 million net). We are also working on the construction of the Polish Army Museum in Ossów. Our company has the relevant safety certificates to carry out construction work for the military.

> Unibep SA consistently impleconstruction industry and we must either been commissioned or are under construction. One example is ding completed in 2021, located in Warsaw's Wola district at 51 Grzybowska Street. It consists of 3 towers, the highest of which is almost which is a public utility building. We also use BIM technology in the design of housing estates. One such estate is the project called Fama Jeżyce, which is being constructed on a nearly 8-hectare site of the former Wiepofama production plant in Poznań. Ultimately, the entire residential complex will comprise 2,500 flats. Our experience and competence in this area allow Unibep SA to acquire complex and technically ambitious projects.

> In territorial terms, the Warsaw market is still the most important, followed by Poznań. Our presence in the latter is mainly related to activities as part of the Group's property development segment, where Unibep SA is the primary general contractor. The company is also active in other regions of Poland and intends to further develop its activities there.

In addition, the com-

A new business segment, i.e. enerseparated in 2021 on the basis of general contracting. Its development is to be based on the organic growth of a dedicated division organised within the structures of Unibep SA, as well as on potential acquisition processes (M&A), bearing in mind environmental and consumer trends in response to the needs related to the necessity of transforming the Polish economy towards a zeroand low-emission one; focusing on the assumptions of the green economy, the intention is to implement projects with high energy efficiency.

In previous periods, the share of industrial and energy construction in Unibep SA's sales grew year-on-year. 2021 was an important year in the context of activities mainly related to the acquisition of further contracts for the construction of facilities in this segment. The structures for carrying out tasks in this direction also continue to be developed. The main goal that Unibep wants to achieve in the energy and industrial business is the implementation of so-called "turnkey" projects, with all the required technology.

In 2020, Unibep signed contracts for the following projects: Polimery Police, Waste Water Treatment Plant in Bielsk Podlaski, Mlekovita Freezer Facility in Wysokie Mazowieckie. Of these, the Polimery Project, involving the construction of a polymer plant on the premises of Zakłady Chemiczne in Police and implemented by Grupa Azoty, deserves special mention. It is worth noting that this is one of the biggest investment projects in the industrial segment currently carried out in Poland (net value of PLN 87.2 million). In turn, in 2021 Unibep SA expanded its order portfolio to include a contract for the construction of the new Olefins III Complex at pany signed a turnkey contract for the implementation of the task cal-

Unihouse continuously monitors factory and on construction sites, focusing on achieving the profitability targets in individual projects. The company's aim is to capitalise on the growing interest in energy-efficient and green construction - this applies to the Scandinavian as well as the German and Polish markets. The company's portfolio is currently around PLN 346 million.

This is yet another year where the modular construction segment showed an improvement in gross sales profit along with an increase in sales compared to the previous period. Unihouse SA is responsible for running the business. Despite Covid-19 restrictions (border closure by Norway), module production continued as planned in 2021. However, the company continues to incur costs related to the pandemic situation - these relate to the factory, construction and logistics (purchasing, transport) areas.

In the current complex geopoces a very high risk of supply chain disruptions, with consequent increases in raw material prices, which will translate into higher prices for transport and strategic materials used in production.

Disrupted supply chains have a ty and efficiency at the Production Plant. Above-average increases in direct costs are noticeable in the basic cost groups, i.e. wages, materials. The current situation related

The property development business within the Unidevelopment Group is one of the key businesses within the Unibep Group in terms of performance. In recent periods, level.

The Unidevelopment Group operates in the segment of multi-family buildings, mainly in the Warsaw and Poznań agglomerations. The Group carried out the projects as a general contractor which was commissioned on the vast majority of projects to Unibep SA.

Unidevelopment Group compa-

of which 417 and 478 were part of JV projects, respectively.

As of 31 December 2021, the Unidevelopment Group had 670 flats available for sale, including 206 in the Warsaw market, 387 in the Poznań market, and 77 in other markets.

At the end of 2021, the Group offered 446 flats as part of JV projects, including 86 in the Warsaw market under a project jointly carried out with CPD SA and 381 in the Poznań market under a project jointly carried out with JB Investment Societe commandite speciale SCSp.

The Group continues its good cooperation with CPD SA on the construction of a housing estate in Warsaw's Ursus district. To date, 1,266 flats have been built and sold as part of the joint venture with this partner, with a further 201 flats under construction and sale.

In 2021, the construction of 270 flats began as part of the second of the eight stages of the Fama Jeżyce project carried out in Poznań together with JB Investment Societe commandite speciale SCSp. As part of the project, a total of approximately 2,500 flats are planned to be built on a property with a total area of approx. 7.5 ha at J.H. Dąbrowskiego Street in Poznań.

In 2021, the construction of 665 flats as part of 5 projects began, including 213 flats as part of 2 projects in Warsaw, 270 flats as part of 1 project in Poznań, and 182 flats as part of 2 projects in Radom. On the other hand, sales as part of 6 projects started, including 5 projects whose construction started in 2021 and 1 project in the Warsaw market whose construction started in 2020.

In 2021, 5 projects were completed and commissioned, totalling 830 flats, including 272 flats in the Warsaw market, 421 flats in the Poznań market, and 137 flats in the Radom market.

As at 31 December 2021, there were 6 development projects under construction with a total of 866 flats and 13 commercial premises.

As at 31 December 2021, there were 3 projects under construction in the Warsaw market (including 1 JV project), 1 project in the Poznań market (including 1 JV project), and 2 projects in the Radom market.

the project

pany and building an attractive offer for customers in the Warsaw, Poznań, Radom and Tri-City markets.

Expansion of the land bank guarantees the ability to prepare and launch further development projects and the achievement of financial results in subsequent years adequate to the environment and market situation. The Management Board of Unidevelopment SA consistently pursues this goal, primarily by acquiring attractive properties both in Warsaw and Poznań, where the Group's position and brand is well-established, and recently in the Tri-City, optimising internal management processes and strengthening human resources.

In addition, we are planning to attract an investor/investors for projects in the dormitory and rental housing segment for implementation in the coming years and to enter further new development markets.

As part of cooperation with JB Investment Societe commandite speciale SCSp, work is in progress on preparing for the next stages of a development project involving the construction and sale of approx. 2,500 flats in the Jeżyce district of Poznań. The project strengthens the Group's position in the Poznań market.

In addition, development projects in the newly acquired Tri-City market in 2021, with the potential to build approximately 1,100 flats, are in the pipeline.

The Management Board of Unidevelopment has ambitious development goals, and is currently analysing a scenario including the possibility of carrying out a public offering and introducing shares of Unidevelopment S.A. on the regulated market operated by the Warsaw Stock Exchange, assuming that regardless of the structure of a possible public offering, the intention would be to maintain Unibep SA's control over Unidevelopment SA.

efficient functioning of the office responsible for quality, procurement and OHS processes on ongoing contracts,

proper functioning of internal control and the coordination of quality, risk management and internal audit activities,

optimisation of IT processes and development of IT systems provi- . ding access to management information (Microsoft Dynamics AX 2012, Microsoft Dynamics CRM, Microsoft Power BI, Microsoft MS Project, Microsoft Azure, WEBCON BPS, IBM Cognos, Consolia),

development of internal and external communication systems, i.e. Intranet, Microsoft Outlook, Microsoft Teams, Microsoft OneDri- •

ve, Microsoft SharePoint, Microsoft Yammer, Microsoft Planner,

stock exchange reporting, including in XBRL and XHTML format,

creation of tax capital groups, implementation of an e-invoice

work on obtaining EU funding,

ensuring liquidity to ensure operational efficiency and confidence

MAIN FACTORS LIKELY TO AF-FECT THE FUTURE FINANCIAL **PERFORMANCE OF THE PARENT** COMPANY AND THE GROUP

External factors:

- tuation related to the war in Ukraine,
- availability of materials and changes in material prices related to the situation in the domestic market and aggravated by the situation in Ukraine,
- availability of subcontractors' ٠ construction work related to the situation in the domestic market and in Ukraine,

the supply chain and the resulting impact on the timely completion of all orders, including obligations to contracting entities,

- rising prices of construction materials,
- limitations in obtaining qualified staff,
- involvement in the development · the uncertain macroeconomic situation related to coronavirus and its impact on individual economies, including markets in which the Company operates,
 - temporary closure of foreign markets, e.g. the Norwegian market during the pandemic,
 - the risk of restrictions on movement and quarantine imposed by countries in which the Group companies operate,
- the uncertain macroeconomic si- · maintenance of strong competition, fierce price competition,
 - the risk of a decline in orders from domestic developers and public procurement,
 - the uncertain political situation in Belarus affecting the economic settlement of ongoing transactions,
- services and changes in prices for rising land prices and limited access to investment land,
 - · limited availability of external financing,
- disruption to the maintenance of high volatility on the foreign ex-

Unibep Days 21-22 October 2021, Białystok University of Technology

change market, large fluctuations in exchange rates and currency . spreads,

- the possibility of taking advantage of EU funding for research and development activities,
- · variable interest rates impact on the cost and availability of external financing,
- accumulation of public procurement, especially in the infrastructure projects market.

Internal factors:

- good financial standing, financial liquidity, access to credit and guarantee limits with banks and insurance companies,
- a good order portfolio in all Group businesses,
- · increased activity in the energy and industrial segment,
- development of new activities, diversification of operations in particular businesses of the Unibep Group,
- tivation of operations in the field of modular construction - activities related to the presence in . the Polish and German markets,
- building a land bank and the possibility of launching further own development projects in new mar-

kets,

- development and use of new electronic communication tools - caused by the epidemiological situation.
- optimisation of Microsoft Dynamics AX 2012 enterprise management system and other systems supporting operational processes in the Group companies, such as Microsoft Dynamics CRM, AX People, IBM Cognos, Microsoft Power BI, Microsoft Azure,
- activities related to the implementation of the BIM concept technology,
- improvement of process and production efficiency through the use of organisational units: Technical Office, Quality and Technology Office, Design Department (architects, statisticians, design engineers), R&D Department,
- reduction of export activities in the Belarusian and Ukrainian markets.
- geographic diversification and ac- relatively high reliance on the construction of buildings, including residential premises,
 - relatively high reliance on the Warsaw market.

5. Financial position OF THE UNIBEP GROUP

DESCRIPTION OF ESSENTIAL ECONOMIC AND FINANCIAL DATA

As at 31 December 2021, the consolidated value of the Unibep Group's assets increased by PLN 301,013 thousand compared to the end of December 2020. This was due to an increase in the value of fixed assets by approximately 12.3% (PLN 36,187 thousand) and an increase in the value of current assets by 28% (PLN 264,826 thousand).

Fixed assets:

The change in the value of fixed assets as of 31 December 2021 compared to 31 December 2020 was first and foremost due to the following:

an increase in the value of investment property by PLN 21,027 thousand,

an increase in the value of fixed assets by PLN 12,787 thousand,

a decrease in investments in entities measured using the equity method by PLN 6,513 thousand

Current assets:

to:

a decrease in the value of contractual assets by PLN 142,876 thousand,

an increase in the value of inventories by PLN 100,072 thousand,

an increase in the value of current tax receivables by PLN 13,523 thousand,

Liabilities:

The changes in liabilities resulted from:

an increase in equity by PLN 46,277 thousand,

an increase in long-term liabilities by PLN 53,951 thousand, where the most significant changes involved:

- nancial liabilities by PLN 30,295 thousand,
- an increase in long-term provisions by PLN 18,194 thousand,
- an increase in lease liabilities by PLN 14,131 60,506 thousand. thousand,
- a decrease in deferred tax provisions by PLN 8,851 thousand,
- an increase in short-term liabilities by PLN

200,784 thousand, where the most significant changes involved:

- an increase in contractual liabilities by PLN 142,927 thousand,
- an increase in short-term provisions by PLN 26,371 thousand,
- an increase in loans, borrowings and other financial liabilities by PLN 22,737 thousand.

Most of the financial indicators of Unibep Group were at a similar or slightly higher level in 2021 compared to the previous year. Profitability increased, both at the EBIT and net profit levels.

The return on equity ratio (ROE) remains at a good level (13.32%), its value increased by 1.99 p.p. compared to the previous year.

In 2021, the Group's sales revenue maintained the previous year's level (an increase of 2%).

By segment, revenue growth compared to 2020 The increase in current assets was mainly due was demonstrated by all segments except for a slight decrease in residential and commercial construction. Taking gross profit on sales as a criterion, the performance was improved in comparison with the previous year by property development activity and modular construction.

> In 2021, selling costs remained at a similar level (a decrease of 4% compared to 2020), which is related to the expansion of property development activity and the launch of new projects. General administrative costs increased by approximately 8%. Significantly, the level and profitability of EBIT exceeded the ratios of 2020.

At the Parent Company level, net profit was at - an increase in loans, borrowings and other fi- the previous year's level, with a slight 1 per cent decrease in sales. Cash at the end of the year at a high level of PLN 107,168 thousand, with negative cash flows from operating activities of minus PLN

implementing investment plans

The development potential of the Group's individual businesses and their ability to achieve financial objectives makes it possible to establish targeted investment programmes. This has an impact on the development of the entire Group and the increase in the company's value. The Group's financial position is favourable to the implementation of its investment plans.

The implementation of investment plans will largely depend on the situation prevailing during the year and the prospects in each of the businesses. The macroeconomic situation in Poland and abroad may condition the launch or postponement of specific activities. Ensuring asing the volume and quality of bi- ongoing construction projects. financial liquidity is a priority.

1. Introduction of the state of coronavirus epidemic on the opeepidemic in the territory of the Re- rations of Unibep and the Group public of Poland. Information on **the possible impact of the Covid-19** of the COVID-19 coronavirus pan-

The year 2021 was another period

demic, which forced construction companies to revise their existing plans and strategies from the outset. Ultimately, the construction indus-

try was one of the few sectors which tivities to the opportunities and con- ministrative decisions and decisions resisted the crisis brought about by straints arising from the situation in the pandemic. The numerous "black the markets. scenarios" about the unavailability of materials and workers, having to has not changed significantly cominterrupt ongoing contracts or refrain from startin new investments did not ultimately materialise. In the past period, Unibep Group companies did not experience any major turbulence in this respect. Periodic disruptions in the supply of materials, restrictions imposed by Norway on the movement of persons or the significantly slower issuing of necessary permits by public administration bodies than in previous years were tangible issues felt during the crisis. With disrupted supply chains and soaring material prices, contract efficiency and margins were under constant supervision, and maintaining expected margins required significant efficiency from the management.

The current development directions of the Unibep Group and the time perspective for their implementation largely take into account rus epidemic on the tangible and inthe situation related to the state of tangible assets, the development of epidemic threat in our country. Past business contacts, sales opportuniand current actions are aimed at a ties and activity on the markets of in-restrictions in the future periods, flexible approach to adapting its ac- terest to the Group, the effects of ad- which could result in lower levels of

The situation in the Unibep Group pared to the previous quarters of 2021. However, publicly available information on the state of the pandemic prompts us to take appropriate action both internally and with our business partners. A crisis team, established in 2020 and chaired by the President of the Management Board of Unibep SA, is in place at all times to continuously monitor the risks associated with the threat and their potential impact on the Company's smooth operations, on-time delivery and increased costs.

The Management Board of Unibep SA continuously monitors its own and the environment's current situation and its possible impact on the Group's operating prospects. The opportunities and risks associated with the business, the feasibility of achieving business objectives and the potential impact of the coronavi-

of contracting entities are assessed on an ongoing basis. Credit risk and liquidity have been assessed. The situation was analysed in both shortand long-term. In the opinion of the Management Board, there are no significant circumstances limiting the possibility of realisation of business and investment plans by the Parent Company or Unibep Group companies.

Future negative financial effects caused by the COVID-19 pandemic cannot be ruled out, but for the time being the biggest negative impact on the market on a micro and macro level is caused by the hostilities in Ukraine. The possible closure of borders could limit imports from other countries in Europe and around the world. Consequently, this may limit the ability of the Unibep Group to perform its contractual obligations, particularly outside Poland.

Norway's imposition of restrictions on the movement of persons had an impact on the higher cost of living of workers in Norway than in previous periods. It cannot be ruled out that the situation may cause further

the Group and to its subcontractors employing workers from abroad.

The analysis of assets in our possession indicates that there are no material premises for impairment of fixed and current assets and as of today, their adjustment is not necessary. We decided that the assets will munication and the development of be used for the current and future portfolio of contracts.

Company also take into account the tives of the Group within individual current market situation. The analysis to date allows us to conclude that in view of the current epidemic situation, the Management Board does not see a risk of a threat to the continuation of operations in all areas of the Group, however, depending on in previous periods, every ongoing its further development, a reduction contract in residential and commerin revenue relative to that expected cial, modular and infrastructure in some areas of operations cannot construction has secured financing. be ruled out. We do not rule out the possibility that the situation caused by the next wave of the pandemic may temporarily limit the investment expenditure of contracting en- before it is launched. Our credit sittities.

Since the beginning of the pandemic, the Group has assumed that diversification of its business could limit any future negative economic impact associated with the state of the pandemic. The assumed development of energy and industrial health of its employees and the longconstruction in the next few years is one of the responses to the risk of reduced activity caused by the pan- made to the best knowledge of the demic.

Transport and movement restrictions were not as limiting in the Polish market in 2021 as in the earlier period. Nor, in the opinion of management, will they have a material impact on the results for 2022 and subsequent periods for the business conducted in Poland.

The operation of our businesses during the period covered by these financial statements was constrained by the slowdown in the work of government and local government administration bodies and supervision on the part of contracting entities as a result of work being carried out remotely. At present, the approach of administration bodies in this respect conclude that, in the face of today's is becoming more lenient, which variables, we do not see any going can only improve the operational efficiency of our businesses.

human resources available both to the organisational efficiency of the back office within the Group could be observed, which was related to periodically higher sickness rates and the consequent introduction of remote working for some employees. The pandemic situation also resulted in new channels of comelectronic systems. However, remote work did not significantly affect the Development plans within the achievement of the business objecbusiness segments.

Our liquidity situation is constantly monitored. We do not expect significant potential payment turbulence on ongoing contracts and its impact on our liquidity. As Our development group operates in a special purpose vehicle model, which means that, as a rule, for each new project, it ensures its financing uation is in order.

At the same time, the Unibep Group implements all decisions and recommendations of the authorities and monitors the situation on an ongoing basis, and in making its decisions is guided by concern for the Jakubowski resigned from the positerm value of the Unibep Group.

The above assessment has been Management Board of Unihouse S.A. The scale of the consequences of the COVID-19 pandemic and its impact on the Unibep Group's operations in 2021 was limited, but its further impact on the operations of the Group companies depends on factors that are beyond the control of the Unibep Group and subject to dynamic change. As a result, it is not possible to determine clearly the impact of the COVID-19 pandemic on the Unibep Group's further operations, performance, forecasts and financial position. Experience gained by Unibep Group in the 2020-2021 period in connection with the outbreak of the pandemic allows us to concern risk.

Additional extraordinary nega-In 2021, temporary limitations in tive events for the Issuer and the

industry as a whole and the consequences thereof cannot be ruled out 100%. However, phenomena of this type are monitored on an ongoing basis, and the actions taken within the Group are intended to minimise their potential effects should they occur.

2. Changes in the management boards of Unibep SA Group companies

Since 1 January 2021, Adam Poliński, who headed the Infrastructure Branch of Unibep SA, has been the new fourth member of the Management Board of Unibep SA.

Since 1 January 2021, Ewa Przeździecka has been holding the position of Vice-President of the Management Board of Unidevelopment SA. She was previously a Member of the Management Board of this company.

The Management Board of Unihouse SA also changed on that day, and is now composed of three members. Since the new year, Marcin Gołębiewski has been the President of the Management Board, Sławomir Kiszycki has been the Vice-President, and Roman Jakubowski has become a Member of the Management Board.

On 15 September 2021, Roman tion of a Member of the Management Board of Unihouse SA. Since 22 November 2021, Jacek Grzybowski has been a Member of the Management Board, Commercial Director at Unihouse SA.

7. Unihouse promotes the symbiosis of nature, technology and art

On 18 August 2021, the official presentation of a work by Prof. Leon Tarasewicz, which had been exhibited in the Polish Pavilion during Expo 2020 in Dubai, took place in the Unihouse SA Modular House Production of the World Expo hosted by Dubai was sustainability. The vision of Xylopolis proposed by the Podlaskie Voivodeship, a city of the future, to challenges posed by this issue.

8. Adoption of the Dividend Policy of Unibep S.A.

On 9 November 2021, the Dividend Policy of Unibep S.A. was adopted, according to which the intention of the Issuer's Management Board is to recommend to the Annual General Meeting, after obtaining a positive opinion of the Supervisory Board of the Company, the payment of the dividend in the amount of 20% to 50% of the consolidated net profit disclosed in the financial statements of the Unibep Group for a given financial year, taking into account in particular the following factors: i) prospects, ii) future profits, iii) cash requirements, iv) financial position of the Unibep Group, v) development plans of the Unibep Group. (RB 56/2021)

9. Guidelines of the Supervisory Board of Unibep S.A. regarding a new business segment, i.e. energy and industrial construction and the property development segment

On 9 November 2021, the Supervisory Board of Unibep S.A. issued guidelines to the Management Board of the Company relating to:

• the creation of a new business segment in the form of energy and industrial construction, based on the organic growth of a dedicated division organised within the structures of the Issuer, as well as on potential acquisition processes (M&A), bearing in mind in particular new technologies, environmental and consumer trends in response to the needs related to the necessity of transforming the Polish economy towards a zero- and low-emission model; focusing on the assumptions of the green economy, the intention is to implement projects with high energy efficiency;

the analysis of a scenario involving a potential public offering and floating of shares of the company's subsidiary, Unidevelopment S.A., responsible for the property development segment in the Unibep Group, on the regulated market operated by the Warsaw Stock Exchange, assuming that regardless of the structure of a possible public offering, the intention would be to maintain the Issuer's control over Unidevelopment. (RB 57/2021)

6.5 EVENTS AND CONTRACTS SIGNED AFTER THE BALANCE SHEET DATE

1. Russia's invasion of Ukraine. Information on the impact of the war on the Unibep Group's operations

The armed conflict that began on 24 February 2022 in Ukraine and its consequences, as well as the actions taken by international communities against Russia were events that affected the Company's and the Group's operations and future financial performance. Apart from the design work carried out on the contract concerning the Shehyni road border crossing, Unibep does not currently carry out any construction work in Ukraine, Belarus or Russia. None of our Polish employees are based in these territories. The Company's representative office remains located in Lviv. As at the date of publication of these financial statements, the Company's has no intention of withdrawing from the Ukrainian market, and Unibep maintains its intention to implement its projects, while further cooperation and implementation of contracts in Ukraine depends on the development of the geopolitical situation in the region.

At the same time, the Company reiterates that it has limited its operations on the Belarusian market to the maximum extent possible due to the unstable social and economic situation in that country, which does not guarantee the safety of its activities there. Unibep does not carry out any construction work in the Republic of Belarus, nor does it make efforts to obtain new contracts. The Company's • availability of raw materials and maintention is to withdraw from the Belarusian market after fulfilling its service obligations to existing customers.

According to the information available to the Company, there are entities employing Ukrainian citizens among its subcontractors and collaborating companies on the Polish market. The Group is in ongoing contact with its business partners and monitors the impact of the conflict on the performance of contracts to which the Group entities are a party. At present, Unibep does not identify any risks in this area. Contractors are completing the works without any downtime.

As at the date of publication of these financial statements, the armed conflict in Ukraine is not an indication of impairment of the Unibep Group's is continuously monitoring the possi- istered office in Białystok [Consortium

assets. However, the war in Ukraine presents a huge challenge for the construction industry. Many private investors have held back their decisions and are waiting to see how the situation will develop.

The main risks and threats mainly include abnormal increases in the prices of energy, fuel and construction materials, their low availability and disrupted supply chains. As of today, this causes difficulties in terms of reliable contract valuation and, consequently, long-term planning.

The Group recognises problems in ensuring continuity

in the supply chain caused by the above-mentioned factors and observes an increase in material prices, but executes contracts on an ongoing basis and without major disruptions. The Group has not experienced any significant delays in the implementation of its projects due to the impact of the armed conflict in Ukraine. It cannot be ruled out that in the event of an escalation of the conflict or as a result of sanctions imposed on Russia by the international community, the conflict may significantly affect the Group's operations, either directly or indirectly. Some of the limitations associated with this are noticeable. The problem affects areas such as:

- interrupted or disrupted supply chains, which may result in restrictions on the availability of raw materials from Ukraine and Russia
- terials
- influence on the level of prices of purchased materials (in particular steel, fuels and crude oil derivatives)
- an outflow of workers from Ukraine, which may have an impact on the availability of workers in the construction sector
- investment financing increased costs
- assessment of Poland's attractiveness by foreign investors.

As at the date of publication of these financial statements, the impact of the aforementioned phenomena on the construction industry, including the Unibep Group's operations, as well as the scale of these phenomena, are difficult to assess. However, Unibep

ble impact of the conflict in Ukraine on the Group's operations, including the performance of concluded contracts. The Company is analysing the situation and building scenarios for action in case the conflict escalates. The Company's representatives are in regular contact with business partners (contracting entities, subcontractors, material suppliers), engage in a dialogue with non-governmental organisations, as well as contracting entities from the public sector.

The conflict is an event occurring after the balance sheet date and did not affect the data presented for the period covered by these financial statements, i.e. the period from 01/01/2021 to 31/12/2021.

2. Conclusion by the Consortium of Unibep S.A. and Budrex sp. z o.o. of two contracts for the implementation, of respectively the third and fourth parts of the task called "Construction of state border security installations along the section of the Podlaski Border Guard Regional Unit"

Bridge on the Narew River, Uhowo, Poland

The agreements were extended until Dabrowskiego Street in Poznań 28 February 2023.

On 28 February 2022, Unibep S.A. and BGK extended the overdraft and guarantee facility agreement in the total amount of PLN 20 million. The agreements were extended until 28 February 2023.

19. Selection of the tender submitted by Unibep S.A. in the tendering procedure for the performance of construction works as part of the project called "Extension of voivodeship road No. 513 along the Lidzbark Warmiński - Wozławki section"

On 10 March 2022, Unibep SA received a notification from the Voivodeship Roads Authority in Olsztyn on the selection of the tender submitted by the Issuer in the procedure for the award of a public contract called "Extension of voivodeship road No. 513 along the Lidzbark Warmiński -Wozławki section" as the most advantageous.

The price of the tender submitted by the Issuer is approximately PLN 145.1 million net, i.e. approximately PLN 178.5 million gross. The declared project implementation period is 24 months from the date of conclusion of the contract, excluding winter periods. (RB 19/2022)

On 30 March 2022, Unibep SA concluded a contract for the implementation of the task. The contracting entity is the Warmińsko-Mazurskie Voivodeship - the Voivodeship Roads Authority with its registered office in Olsztyn. (RB 25/2022)

20. Conclusion of a contract for the implementation of the third stage of a housing project at Jana Henryka z o.o., with its registered office in War-

On 11 March 2022, Unibep SA signed a contract for the implementation of the third stage of a housing project at Jana Henryka Dabrowskiego Street in Poznań as a general contractor.

The contracting entity is a subsidiary of Unidevelopment S.A., Fama Development spółka z ograniczoną odpowiedzialnością spółka jawna, with its registered office in Poznań. The project will be carried out in the period Q1 2022 -Q4 2023. The Issuer's remuneration for the performance of the contract is PLN 119.9 million net. (RB 20/2022)

21. Conclusion of a contract for the implementation of stage DE of a housing project at Szwedzka Street in Warsaw

On 22 March 2022, Unibep SA signed a construction contract (Contract) for the implementation of stage DE of a housing project at Szwedzka Street in Warsaw as a general contractor.

The contracting entity is a company forming part of the OKAM CAPITAL Group, i.e. SZWEDZKA E Sp. z o.o. with its registered office in Warsaw.

The project will commence after the contracting entity issues a written order to commence the work, which should take place in Q2 2022, whereas the work is expected to be completed in Q3 2024. The Issuer's remuneration for the implementation of the project is PLN 108.0 million net. (RB 21/2022)

22. Conclusion of preliminary agreements for the purchase of properties located in the Włochy district of Warsaw

On 23 March 2022, UNI 13 Sp.

saw, a company forming part of the Issuer's Group and subsidiary of Unidevelopment S.A., and natural persons concluded preliminary agreements for the acquisition of the ownership of three adjacent properties with the total area of approximately 7,5 thousand m2, located in the Włochy district of Warsaw, for the total price of approximately PLN 34.7 million.

The promised agreements in respect of the properties will be concluded in stages, no later than until 30 June 2023, once the conditions set out in the agreement have been fulfilled. If the promised agreements are concluded, the buyer intends to use the properties for a development project with the potential to construct approximately 200 residential units. (RB 22/2022)

23. Conclusion of a contract for the reconstruction and extension of a storage and production hall in Mszczonów

On 28 March 2022, Unibep SA concluded a construction contract for the reconstruction and extension of a storage and production hall in Mszczonów.

The contracting entity is Mondi Warszawa Sp. z o.o. with its registered office in Mszczonów. The Issuer's remuneration for the implementation of the project is PLN 164.0 million net. The project will commence in Q2 2022 and will be completed in Q3 2023. (RB 24/2022)

7. Statement

ON THE APPLICATION OF CORPORATE GOVERNANCE PRINCIPLES BY UNIBEP SA IN 2021

7.1 DEFINITION OF THE SET OF CORPORATE GOVERNANCE PRINCIPLES APPLIED IN THE COMPANY

In 2021, the Company applied the corporate governance principles under the name "Best Practice for WSE Listed Companies 2021" adopted by the Stock Exchange Board by resolution of 29 March 2021 and effective from 1 July 2021. In connection with the entry into force of the aforementioned set of corporate governance principles, the Company published a statement on the status of the Company's compliance with the recommendations and principles contained in the set. The text of this statement is available on the Company's website at www.unibep.pl (in the Investor Relations section). The full text of the applicable corporate governance principles contained in the aforementioned documents is available on the dedicated WSE corporate governance website at www.gpw.pl/dobre-praktyki2021.

The Company provides all shareholders with equal access to information about the Company, in particular by publishing current and periodic reports, which are then published on the corporate website. The Management Board of the Company constantly undertakes actions aimed at providing equal and full access of all investors to the information about the situation and events taking place in the Company.

the unibep
ply the following principles of the among others: Best Practice: 1.3.1., 1.3.2., 1.4. 2.1., 2.2., 2.4., 3.10., 4.1., 4.3., 6.3. and 6.2. which is complied with by the Company as of the date of publication of this report.

Communications

1.3. The Company also integrates ESG factorsin its business strategy, including in particular:

1.3.1. environmental factors, including measures and risks relating to climate change and sustainable development;

Although the Company has not developed a long-term development strategy in the form of a single document, it customarily includes ESG factors in its activities in order to comply with applicable regulations and given the importance of the interaction of business activities with environmental, social and corporate governance factors. The results of these activities are presented in the Company's annually published sustainability reports.

1.3.2. social and employee factors, including among others actions taken and planned to ensure equal treatment of women and men, decent working conditions, respect for employees' rights, dialogue with local communities, customer relations.

Although the Company has not developed a long-term development strategy in the form of a single document, it customarily includes ESG factors in its activities in order to comply with applicable regulations and given the importance of the interaction of business activities with environmental, social and corporate governance factors. The results of these activities are presented in the Company's annually published sustainability reports.

1.4. To ensure quality communication with stakeholders on the adopted business strategy, the Company publishes on its website information concerning the framework of the strategy, measurable goals, including in particular long-term goals, planned activities and their status, defined by measures, both financial and non-financial. ESG informa- different life and professional experien-

In 2021, the Company did not ap- tion concerning the strategy should

The Company has not developed a development strategy in the form of a single document. The business of the Company and its Group is built on five complementary segments: domestic ge-1. Disclosure Policy, Investor neral contracting, general contracting abroad, road and bridge infrastructure, modular construction and property development activity. In the Company's opinion. the development of a single document containing a long-term action plan covering all the businesses of the Company and its Group would be difficult at the moment, given the current dynamically changing market situation, particularly in the construction industry environment. The Company prioritises its individual businesses and adapts its operating strategy on an ongoing basis to the dynamically changing environment.

2. Management Board and Supervisory Board

2.1. The company should have in place a diversity policy applicable to the management board and the supervisory board, approved by the supervisory board or the general meeting, respectively. The diversity policy defines diversity goals and criteria in areas such as gender, education, expertise, age, and professional experience, and specifies the target dates and the monitoring systems for such goals. With regard to gender diversity of corporate bodies, the participation of the minority group in each body should be at least 30%.

The Company has not adopted a diversity policy for management and supervisory board members in the form of a single document. The Company aims to ensure the versatility and diversity of its bodies, but the specific nature of the industry in which it operates makes it difficult to meet all the required criteria. Due to the location of the Company's registered office in Podlasie, which is considered to be a melting pot of nationalities, cultures and communities, employees and members of the Company's bodies come from different backgrounds and cultures, represent different ways of thinking and points of view and have

ces. The Company's policy is that any discrimination in employment, in particular on the grounds of sex, age, disability, race, religion, nationality, political beliefs, trade union membership, ethnic origin, religion, sexual orientation, etc., is unacceptable. With regard to the management and supervisory bodies, the Company explains that the composition of the Management Board and Supervisory Board of the Company is diverse in terms of education, expertise, age and professional experience, but the bodies concerned lack gender diversity in particular. There is currently one woman on the Company's seven-member Supervisory Board, while the Management Board is composed entirely of men. As the Company recognises the need for and seeks to ensure diversity in the bodies, it will consider adopting a formal policy in this regard in the future.

2.2. Decisions to elect members of the management board or the supervisory board of the company should ensure that the composition of those bodies is diverse by appointing persons ensuring diversity, among others in order to achieve the target minimum participation of the minority group of at least 30% according to the goals of the established diversity policy referred to in principle 2.1.

The Company has not developed a diversity policy in the form of a single document, but in the interest of the stability and effectiveness of the Company's operations, those who make decisions on the appointment of members of the Management Board or the Supervisory Board of the Company in practice seek to ensure that the composition of those bodies is diverse.

2.4. The supervisory board and the management board vote in an open ballot unless otherwise required by law.

The Company's corporate documents contain provisions on the need to use secret ballot in selected cases. In the Company's opinion, such a voting method allows free decision-making on personnel matters.

3. Internal Systems and Functions

3.10. A company traded on the

WIG20, mWIG40 or sWIG80 index has its internal audit function reviewed at least once every five years by an independent auditor appointed with the participation of the audit committee.

Not applicable. The Company is not currently traded on any of the specified indices

4. General Meeting and Share**holder** Relations

4.1. The company should enable its shareholders to participate in a general meeting by means of electronic communication (e-meeting) if justified by the expectations of shareholders notified to the company, provided that the company is in a position to provide the technical infrastructure necessary for such general meeting to proceed.

To date, the Company has not held a general meeting by means of electronic communication (e-meeting). The Company's shareholders have not raised such expectations. In the event that shareholders raise an expectation to ensure participation in a general meeting by means of electronic communication (e-meeting), and provided that the Company is in a position to provide the technical infrastructure necessary for such general meeting to proceed, the Company intends to apply Principle 41

4.3. The Company provides a public real-life broadcast of the general meeting.

The Company believes that the cur*rent method of informing the interested* parties about the course of the general meeting (publishing the content of adopted resolutions and information about votes against, etc.) ensures transparency of the Company's operations and protects the rights of shareholders. The Company also informs that if there is any interest on the part of shareholders in recording the course of the General

Meeting in audio/video format, the and Group companies and their key Management Board of the Company will consider taking steps towards the introduction of this principle.

6. Remuneration

6.2. Incentive schemes should be constructed in a way necessary among others to tie the level of remuneration of members of the company's management board and key managers to the actual long-term standing of the company measured by its financial and non-financial results as well as long-term shareholder value creation, sustainable development and the company's stability.

In 2021, the Company did not apply this principle, giving the following justification:

The Company has an incentive scheme under which members of the Management Board of the Company and Group companies and their key managers may purchase own shares bought back by the Company under the terms and conditions set by the Supervisory Board, as authorised by the general meeting. The scheme makes the ability to purchase shares in the Company conditional on the fulfilment of time when such programme was apthe allocation criteria adopted by the proved. Supervisory Board for the relevant assessment year, including in particular propriateness of considering non-fiset financial targets of the Company and its Group. The Company, recognising the appropriateness of considering non-financial factors and multi-year criteria in shaping the variable remuneration of the Management Board and key managers, will consider applying the principle in the future.

As of the date of publication of this report, the Company already applies this principle, as notified in EBI Report 1/2022 dated 20 January 2022 with the following commentary:

The Company has an incentive scheme under which members of the Management Board of the Company

managers may purchase own shares bought back by the Company under the terms and conditions set by the Supervisory Board, as authorised by the general meeting. The scheme makes the ability to purchase shares in the Company conditional on the fulfilment of the allocation criteria adopted by the Supervisory Board for the relevant assessment year, including in particular the set financial targets of the Company and its Group, and from 2022 onwards also the assessment of non-financial criteria in the ESG area.

6.3. If one of the company's incentive schemes includes a stock option programme for managers, the implementation of the stock option programme should depend on the achievement by beneficiaries, over a period of at least three years, of pre-defined, realistic financial and non-financial targets and sustainable development goals adequate to the company, and the share price or option exercise price for the beneficiaries cannot differ from the value of the shares at the

The Company, recognising the apnancial factors and multi-year criteria in shaping the variable remuneration of the Management Board and key managers, will consider applying the principle in the future.

On 14 January 2021, the Supervi-

sory Board of the Company decided on the implementation of the Incentive Scheme for the current financial year, in particular: establishing the criteria for the allocation of shares, adopting the list of participants in the Incentive Scheme, and establishing the selling price of shares under the Incentive Scheme.

In accordance with the decision of the Supervisory Board:

- 1.the list of participants in the Incentive Scheme includes members of the Management Board of the Company;
- 2.the criteria for the allocation of the Company's shares for the assessment year 2021 in particular include remaining a member of the Management Board of the Company as well as meeting the set financial targets of the Company and the Unibep Group;
- 3.the selling price of shares which may be allocated for purchase by an eligible participant of the Incentive Scheme for the assessment year 2021 is 3 PLN per share;
- 4.the eligible participants of the Incentive Scheme [provided that the aforementioned allocation criteria are met] will be offered at least 600,000 shares for the assessment year 2021, including at least

220,000 shares to Mr Leszek Marek Gołąbiecki, at least 190,000 shares to Mr Sławomir Kiszycki, at least 140,000 shares to Mr Krzysztof Mikołajczyk and at least 50,000 shares to Mr Adam Poliński.

Managers have no other entitlements to the Issuer's shares.

On 19 January 2022, the Supervisory Board of UNIBEP S.A. adopted resolutions on adopting the list of participants in the Incentive Scheme for 2022, establishing criteria for the allocation of shares and the selling price of shares under the Incentive Scheme for the assessment year 2022.

In accordance with the decision of the Supervisory Board of UNIBEP SA:

- 1. The list of participants in the Incentive Scheme in 2022 includes members of the Management Board of UNIBEP S.A. and members of the Management Board of Unidevelopment S.A.
- 2. The criteria for the allocation of UNIBEP SA's shares to members of the Management Board of UNIBEP SA for the assessment year 2022 include: a] financial criteria, i.e. achieving the set financial targets of UNIBEP S.A. and the Unibep Group, b] non-financial criteria, in particular: remaining a member of the Management Board of UNIBEP SA, adopting an ESG strategy for UNIBEP S.A. and the Unibep Group, adopting greenhouse gas emission reduction targets for UNIBEP S.A. in specific time perspectives.
- 3. The criteria for the allocation of UNIBP S.A.'s shares to members of the Management Board of Unidevelopment S.A. for the assessment year 2022 include: a] financial cri-

Group.

- 4. The selling price of shares which may be allocated for purchase by an eligible participant of the Incentive Scheme for the assessment year 2022 is 3 PLN per share.
- 5. The eligible members of the Management Board of UNIBEP S.A. [provided that the allocation criteria are met jointly] will be offered at least 600,000 shares of UNIBEP S.A. for the assessment year 2022, including at least 200,000 shares to Mr Leszek Marek Gołąbiecki, at least 200,000 shares to Mr Sławomir Kiszycki, at least 100,000 shares to Mr Krzysztof Mikołajczyk and at least 100,000 shares to Mr Adam Poliński.
- 6. The eligible members of the Management Board of Unidevelopment S.A. [provided that the allocation criteria are met jointly] will be offered for at least 600,000 shares of UNIBEP S.A. for the assessment year 2022, including at least 210,000 shares to Mr Zbigniew Gościcki, at least 130,000 shares to Ms Ewa Przeździecka, at least 130,000 shares to Mr Mirosław Szczepański, at least 130,000 shares to Mr Mariusz Przystupa.

Investor relations

A key element of Unibep S.A.'s effective functioning as a listed company is professional communication with capital market stakeholders, and building and maintaining an appropriate information policy is an area of investor relations activities. MANAGEMENT BOARD

The Management Board of UNIBEP SA acts on the basis of the provisions of the Commercial Companies Code, the Articles of Association, and the By-Laws of the Management Board. In its work, the Management Board also complies with the principles of the "Best Practice for WSE Listed Companies". According to the By-Laws, the Management Board of the Company consists of one or more members. Members of the Management Board, including the President of the Management Board, are appointed and dismissed by the Supervisory Board for a joint three-year term of office. The number of members of the Management Board is determined by the Supervisory Board.

In 2021, there were no changes to the composition of the Management Board of the Company.

As at the date of preparation of this report, the Management Board of the Company is composed of the following persons:

- · Leszek Marek Gołąbiecki President of the Management Board, at the same time holding the position of the Managing Director of the Company,
- Sławomir Kiszycki Vice-President of the Management Board, at the same time holding the position of the Financial Director,
- Krzysztof Mikołajczyk Vice-President of the Management Board, at the same time holding the position of the Construction Director.
- · Adam Poliński Member of the Management Board, at the same time holding the position of the Director of the Infrastructure Branch.

On 14 May 2020, Mr Leszek Marek Gołąbiecki, Mr Sławomir Kiszycki and Mr Krzysztof Mikołajczyk were appointed to the Management Board of the Company for the sixth term of office commencing at the end of the Annual General Meeting, i.e. on 15 June 2020, whereas Mr Adam Poliński was appointed to the Management Board of Unibep S.A. for the current, sixth Management Board and the Company. term of office, on 4 November 2020, effective as of 1 January 2021.

The Management Board manages it before third parties. All matters re-

lated to the management of the Company's affairs not reserved by law or the Articles of Association to the competence of the General Meeting or the Supervisory Board shall fall within the scope of the Management Board's duties.

Resolutions of the Management Board are adopted by an absolute majority of votes. In the event of a tie, the President of the Management Board has the casting vote.

The Management Board is entitled to pay an advance to shareholders against the expected dividend at the end of the financial year, if the Company has sufficient funds for the payment and other conditions set out in the Dividend Policy adopted by the Company on 9 November 2021 are met. The payment of an advance shall be subject to the approval of the Supervisory Board.

The following persons are entitled to submit declarations of will and sign documents on behalf of the Company: the President of the Management Board, acting on their own, or two members of the Management Board acting jointly, a member of the Management Board acting jointly with a proxy or two proxies acting jointly. The Articles of Association do not provide for any special rights for the Company's managers; in particular, the Company's managers are not authorised to make decisions on the issue or redemption of shares.

The By-Laws of the Management Board specify in detail the manner in which the Management Board operates. The By-Laws are adopted by the Management Board and approved by the Supervisory Board. In contracts and in disputes between the Company and a Management Board member, the Company is represented by the Supervisory Board or by a proxy appointed by a resolution of the General Meeting. The same procedure applies to other actions related to an employment relationship or any other legal relationship between a member of the

Competences of the Supervisory Board also include the signing of contracts with members of the Managethe Company's affairs and represents ment Board of the Company, determining remuneration of the President UNIBEP S.A., Leszek Marek Gołą-

and members of the Management Board of the Company and their bonus schemes, as well as exercising the rights resulting from the employment relationship towards members of the Management Board, on behalf of the Company. The Management Board of the Company does not have any special rights related to the issue or redemption of shares.

concluded Contracts between UNIBEP SA and members of the management bodies

In connection with their work and functions in the Management Board, the President of the Management Board, Vice-Presidents of the Management Board and Member of the Management Board of UNIBEP S.A. were employed by UNIBEP S.A. in 2021 under fixed-term managerial contracts until the expiry of the term of office of the member of the Management Board in relation to the expiry of the three-year sixth term of the Management Board (fixed-term employment contract).

amount of 3 times the average month- By-Laws of the Management Board. ly remuneration of an employee of the In its work, the Supervisory Board company. The amount of compensation will include compensation for refraining from competitive activities and the amount of severance pay due to the Employee under applicable legislation in connection with the termination of the employment contract for reasons not attributable to the Employee.

The aforementioned employees entered into non-competition contracts with the Company for the duration of the employment relationship (the non-competition clause is binding for the duration of the employment relationship) and non-competition contracts after termination of employment (the non-competition clause is binding for 6 months after termination of the employment relationship). For the duration of the non-competition clause, employees are entitled • to compensation equal to 60% of the remuneration received by the employee prior to the termination of the employment relationship for a period of six months, which will be paid to the employee in six equal instalments by the 10th of each month, by transfer to an account specified by the employee.

SUPERVISORY BOARD

The Supervisory Board of UNIBEP SA acts on the basis of the provisions of the Commercial Companies Code, the Articles of Association, and the

also complies with the principles of the Best Practice for WSE Listed Companies. The Supervisory Board is composed of 5 to 7 members, appointed and dismissed by the General Meeting for a joint three-year term of office. In the case of group voting, the General Meeting determines the number of members of the Management Board for a given term of office, by adopting a resolution prior to their election. At least two independent members should be appointed to the Management Board. Independent members of the Management Board are persons who meet all of the below criteria:

- · independence criteria within the meaning of corporate governance principles applicable to companies admitted to trading on the domestic regulated market, and
- independence criteria within the meaning of regulations governing the functioning of an audit committee.

Each shareholder may propose candidates for an independent member of the Supervisory Boardin writing to the Management Board of the Company, no later than 7 working days before the date of the General Meeting during which such a member is to be elected. Such proposals must specify the personal details of the candidate 5.Michał Kołosowski - Member of and justification for their candidacy, and include a description of the

candidate's qualifications and professional experience. Proposals must be accompanied by a written declaration of the interested person expressing their consent to be a candidate for the Supervisory Board and confirming that they meet the independence criteria, as well committing to promptly notify of no longer meeting the independence criteria. If no candidates meeting the independence criteria are proposed under the above procedure, the candidate for an independent member of the Supervisory Board shall be proposed by the Management Board of the Company at the General Meeting.

On 15 June 2020, the General Meeting passed a resolution on the election of the Supervisory Board of the Company for the sixth term.

In 2021 and as of the date of this report, the Supervisory Board of the Company is composed of the following persons:

- 1. Jan Mikołuszko Chairman of the Supervisory Board,
- 2.Beata Maria Skowrońska Vice-Chairwoman of the Supervisorv Board,
- 3. Wojciech Stajkowski Member of the Supervisory Board,
- 4. Jarosław Mariusz Bełdowski Member of the Supervisory Board (independent),
- the Supervisory Board (independent),

- 6. Paweł Markowski Member of the Supervisory Board (independent),
- 7. Dariusz Marian Kacprzyk Member of the Supervisory Board (independent).

The Supervisory Board holds meetings at least once every 3 months. The Chairman of the Supervisory Board or their deputy are required to convene a meeting of the Supervisory Board, including upon a written request of a member of the Supervisory Board or the Management Board of the Company. The meeting should be held within 2 weeks of receiving the request.

Members of the Board may participate in Board meetings using means of direct remote communication, provided that such means enable simultaneous communication and identification of all persons participating in the meeting (e.g. teleconference, videoconference), and the notice of the Board meeting provides information about the possibility of participating in the Board meeting in such manner.

A member of the Supervisory Board may cast their vote in writing, through another member of the Supervisory Board. Votes cast in writing cannot pertain to issues added to the agenda at the meeting of the Supervisory Board.

The Supervisory Board may adopt resolutions outside the meeting in writing or by means of direct remote communication. Such a resolution is valid if all members of the Supervisory Board have been notified of the content of the draft resolution.

For resolutions of the Supervisory Board to be valid, all members of the Supervisory Board must be invited in writing to the meeting, and at least half of its members must be present at the meeting, unless the provisions of the Commercial Companies Code provide otherwise. Resolutions of the Supervisory Board are adopted by an absolute majority of votes. In the event of an equal number of votes, the Chairman of the Supervisory Board has the casting vote. The Supervisory Board adopts its internal by-laws by way of a resolution. The Company communicates changes in the composition of the Supervisory Board by means of current reports.

SORY BOARD

In accordance with the By-Laws of the Supervisory Board, permanent or ad hoc committees acting as collective advisory and opinion-forming bodies of the Supervisory Board may be appointed within the Supervisory Board. In particular, a permanent Audit Committee and Strategy Committee can operate within the structure of the Supervisory Board.

Committees are appointed by the Supervisory Board from among its members, by way of a resolution. The committee elects a Chairman of the Committee from among its members. The committee is composed of 3 to 5 members. The majority of members of the Audit Committee, including the Chairman of the Audit Committee, must meet the independence criteria within the meaning of the by-laws governing the functioning of the audit committee. Individual members of the Audit Committee must demonstrate knowledge and skills in the field of the industry in which the Company operates, as well as in accounting and auditing of financial statements.

Such committees submit an annual report on their activities to the Supervisory Board.

June 2021 and 1 October 2021. In 2021, eral Meeting. General Meetings are

the Strategy Committee undertook activities related to the implementation of the tasks entrusted to the Committee, in particular concerning the assessment of the development directions of the Group's individual businesses in future years and their competitive advantages, including in the area of technology and innovation.

DESCRIPTION AND POWERS OF THE GENERAL MEETING, SHARE-HOLDERS' RIGHTS, AND AMEND-**MENTS TO THE ARTICLES OF ASSO-**CIATION

Description of the operation of the **General Meeting.**

The General Meeting of UNIBEP SA acts in compliance with the Commercial Companies Code, the Articles of Association, the By-Laws of the General Meeting, and also takes into account the principles contained in the corporate governance principles adopted by the Warsaw Stock Exchange. All corporate documents and information related to the date, agenda, and adopted resolutions are available on the Company's website at www.unibep.pl (in the Investor Relations section). An Annual General Meeting is convened by the Management Board, within 6 months of the end of each financial year. An Extraordinary General Meeting is convened by the Management Board, the Supervisory Board, or shareholders representing at least half of the share capital, or at least half of all votes in the company. A shareholder or shareholders representing at least 1/20 (one-twentieth) of the share capital may request that the Management Board convene an Extraordinary General Meeting and put certain matters on its agenda. The request to convene an Extraordinary General Meeting and put certain issues on its agenda should be submitted to the Management Board in writing or in electronic form. The Management Board should convene the Extraordinary General Meeting within two weeks from the date of submitting the request. There is a special email address (wza@unibep.pl) provided on the Company's website, which may be used in the cases specified in the Commercial Companies Code related to the Gen-

held either at the Company's registered office or in Warsaw. The General Meeting may adopt resolutions only on the issues included on the agenda. The Supervisory Board, a shareholder, or shareholders representing at least 1/20 (one-twentieth) of the share capital may request that specific issues be put on the agenda for the next General Meeting. Such a request should be submitted to the Management Board not later than within 21 days before the scheduled date of the Meeting. The request must contain a justification or a draft resolution, concerning the proposed item on the agenda. The request may be submitted in electronic form.

In addition to other matters reserved by applicable laws, the competences of the General Meeting include the following:

- 1. reviewing and approving the Management report on the Company's activities and the financial statements for the previous financial year;
- 2. adopting a resolution on the distribution of profits or coverage of losses:
- 3. acknowledging the fulfilment of duties by members of the company's bodies:
- 4. adopting a resolution on amending the Articles of Association;
- 5. adopting a resolution on merging with another Company and transformation of the Company;
- 6. adopting a resolution on dissolution and liquidation of the Company;
- 7. adopting a resolution on the issue of subscription warrants, convertible bonds and bonds with priority rights;
- 8. adopting a resolution on the sale and lease of an enterprise or an organised part thereof and on establishing a limited property right thereon;
- 9. any decisions concerning claims for compensation for damage caused during the formation of the Company, or in the course of exercising management or supervision over it;
- 10. adopting a resolution on compulsory buyout of shares, pursuant to Article 418 of the Commercial Companies Code;
- 11. appointing and dismissing members of the Supervisory Board.

to distribute part or all of the profit to shareholders, the General Meeting is competent to determine the date on which the list of shareholders entitled to a dividend for the relevant financial year is established (record date) and to indicate the date of payment of the dividend. Acquisition or disposal of property, the right of perpetual usufruct, or a share in property does not require a resolution of the General Meeting.

shareholders' Other and their exercise

A shareholder or shareholders representing at least one-twentieth of the share capital may, before the date of the General Meeting, submit to the company in writing or by means of electronic communication draft resolutions on the items placed on the agenda of the General Meeting or on the items to be placed on the agenda.

During the General Meeting, each shareholder may propose draft resolutions concerning the items on the agenda.

Only persons being shareholders of the Company on the Record Date have the right to participate in the General Meeting. The Record Date is the day falling sixteen (16) days before the General Meeting.

Holders of temporary certificates, pledgees and users with voting rights are entitled to participate in the General Meeting, if they are entered in the share register at least one week before the General Meeting is held.

A shareholder who is a natural person may participate in the General Meeting and exercise their voting rights either in person or through a proxy. A shareholder who is not a natural person may participate in the General Meeting and exercise their voting rights through a person authorised to make declarations of will on their behalf or through a proxy.

Rules for amending the Issuer's Articles of Association

In addition to other matters reserved by applicable laws, the competences of the General Meeting include adopting a resolution amending the Articles of Association. Resolutions of the General Meeting shall be adopted • a fixed monthly salary, by an absolute majority of votes, un- • additional benefits. less the Articles of Association or the If the General Meeting resolves Commercial Companies Code provide

for stricter requirements. The Articles of Association do not provide for stricter requirements with respect to voting on a resolution amending the Articles of Association.

The General Meeting may adopt a resolution on a significant change in the objects of the Company without the obligation to buy out shareholders who do not agree to the change, if the resolution is adopted by a majority of 2/3 of votes in the presence of shareholders representing at least half of **rights** the share capital.

REMUNERATION POLICY

UNIBEP S.A. adopted the document "Remuneration Policy of the Supervisory and Management Bodies of UNIB-EP S.A." (Remuneration Policy). This Remuneration Policy became effective on 15 June 2020. The Management Board positively assesses the adopted Remuneration Policy from the point of view of its objectives, in particular the long-term increase in value for shareholders and the stability of the company's operations.

Remuneration of supervisory personnel

With respect to supervisory personnel, the Remuneration Policy states that it is the responsibility of the Company's General Meeting to determine the remuneration principles for members of the Supervisory Board for serving on the Supervisory Board. The level of remuneration for members of the Supervisory Board should be sufficient to attract, retain, and motivate the persons necessary to ensure the correct supervision over the Company. The remuneration of these persons should be adequate to the scope of tasks entrusted to individual Board members and should also take into account the performance of additional functions. At the same time, remuneration for members of the Supervisory Board should not depend on options and other derivative instruments, or any other variable components, and should not depend on the Company's financial performance. The main components of the remuneration system for members of the Supervisory Board include:

Remuneration of management

personnel

With respect to management personnel, the Remuneration Policy provides that the the Supervisory Board is the body authorised to determine the remuneration principles for members the Management Board may include • a monthly bonus, of the Management Board for serving a company car, tools and technical • a performance bonus, on the Management Board. The remuneration of members of the Management Board should correspond to the size of the enterprise and be reasonable in relation to the Company's economic results, while the level of remuneration for members of the Management Board should be sufficient to attract, retain, and motivate the persons necessary to ensure the proper management of the Company. When determining and verifying the amount of remuneration for members of the Management Board, the Supervisory Board should take into account in particular the scope of duties and responsibilities, the workload necessary to properly perform the entrusted scope of duties, and the level of remuneration in similar positions paid by other entities operating on the market. Incentive programs should make the level of remuneration for members of the Management Board dependent on the actual long-term financial situation of the Company and on a long-term increase of value for shareholders, as well as on the stability of the Company's operations.

The main components of the remuneration system for members of the Management Board include:

- a fixed monthly base salary,
- an annual bonus,
- · compensation resulting from termination of an employment contract with a member of the Management Board for reasons not attributable to them,
- compensation under the non-competition clause after termination of employment,
- · additional benefits.

Members of the Management Board are entitled to an annual bonus in the amount determined as a percentage, depending on the achievement of the financial or material goals defined by the Supervisory Board, calculated on on the market. Incentive programs the basis of consolidated net profit of should make the level of remunerathe UNIBEP SA Group for each finan- tion for key managers dependent on cial year, determined on the basis of the actual long-term financial situaconsolidated financial statements of tion of the Company and on a longthe UNIBEP SA Group, approved by term increase of value for shareholdan authorised body. The Supervisory ers, as well as on the stability of the

Board determines the amount of a bonus and the conditions for granting it to individual members of the Management Board, by means of a resolution. Additional benefits for members of equipment necessary to perform the · additional benefits. duties of a member of the Management Board, payment of travel costs, fuel cards, reimbursement of documented necessary expenses incurred in connection with the performance of duties to the extent and in the amount appropriate to the functions entrusted, benefits under OHS regulations, civil liability insurance contract for members of the Management Board, private medical packages, benefits under the Company's Social Benefits Fund, training courses and participation in other events whose subject matter relates to the type of work performed and aimed at improving qualifications.

Remuneration of key managers

With respect to key managers, the Remuneration Policy indicates that the body authorised to determine the principles of remuneration of key managers is the Management Board, which determines the remuneration on the basis of the Corporate Collective Labour Agreement implemented in the Company, the rules of awarding bonuses to white-collar workers. The remuneration for key managers should correspond to the size of the enterprise and be reasonable in relation to the Company's economic results, while the level of remuneration for key managers should be sufficient to attract, retain, and motivate the persons necessary to ensure the proper management of the Company. When determining and verifying the amount of remuneration for key managers, the Company should take into account in particular the scope of duties and responsibilities, the workload necessary to properly perform the entrusted scope of duties, and the level of remuneration for a similar position applied by other entities operating

Company's operations.

The main components of the remuneration system for key managers include:

- a fixed monthly base salary,

Key managers are entitled to a monthly bonus, depending on the timely and proper performance of tasks determined by the scope of activities, granted and paid in accordance with the principles set out in detail in the rules of awarding bonuses to white-collar workers. Key managers are also entitled to a performance bonus dependent on the financial or material targets set by the Management Board within the areas supervised, awarded and paid on the terms and conditions set out in detail in the Performance Bonus Regulations. Additional benefits for key managers may include a company car, tools and technical equipment necessary to perform their duties, reimbursement of travel and representation expenses to the extent and in the amount appropriate to the functions entrusted to them, private medical insurance, or training to improve qualifications. The Management Board of the Company is responsible for carrying out performance appraisal of key managers.

The Company does not grant separate retirement benefits or benefits of similar nature in relation to former management and supervisory personnel. Moreover, the Company does not have any administrative bodies referred to in § 70(7)(18) of the Regulation of the Minister of Finance on current and periodic information (...).

8.1 DESCRIPTION OF RISKS AND THREATS

Risk, interpreted as an uncertain event, is an inherent part of every business activity. Each of the risks discussed below may have a material adverse effect on the Unibep Group's operations, financial position and development prospects, as well as on its financial performance should it occur.

RISK RELATED TO THE MACROECO-NOMIC SITUATION IN POLAND

A deterioration of the economic situation in Poland may be accompanied by a number of negative macroeconomic phenomena, which may have a negative impact on sectors of the economy, including the construction sector. The Polish economy is strongly connected with the European Union, both politically and economically. In connection with the globalisation of national economies, and in particular with the liberalisation of capital and labour flows, a global crisis may also have a negative impact on the Polish economy. Such events are manifested by an economic downturn

FOREIGN EXCHANGE RISK

As part of their operations, the into contracts that are (or may be) denominated or expressed in foreign currencies. In terms of export earnings, hedging against foreign exchange risk is primarily effected thus transferring the risk to them.

It is the intention of the Issuer's position by balancing foreign currency transactions related to revenue and expenses. The Issuer has signed contracts concerning foreign currency transactions with banks, enabling it to use hedging instruments, provided that closing a natural position in the given period is not possible.

The strategy of the Issuer's Group regarding financial instruments hedging foreign exchange risk is based on the following two main assumptions:

- 1. hedging amounts not greater than the planned foreign exchange flows,
- tools, e.g. forward or unrealistic forward.

The Issuer's Group enters into specific transactions denominated in foreign currencies. As a rechange risk management procedure. The Issuer's Group is particularly exposed to fluctuations of NOK/PLN, der to hedge its exposure to foreign The Company is analysing the sit- exchange risk. The rules governing

POLITICAL RISK INTHE EAST-

Due to the situation across Poland's eastern border, the Issuer's Group is particularly exposed to the political risks of these markets. At present, it is expected that it may not be possible to obtain new significant contracts in the Ukrainian market in the coming periods. In addition, the Group has for the time being cancelled contracts in Russia and Belarus.

In view of the recent events in Ukraine, threats and actions (including those of a military nature) that are difficult to foresee should be taken into account. the course of which may significantly destabilise the Group's operations.

In the case of contracts previously performed in the East, schedules of works and expenditure have always been prepared in such a way as to minimise the risk of the Issuer's Group related to the possible neces-

RISK RELATED TO EXPANDING

The Group strives to diversify its of profit. Operating in new markets entails the need to know in detail the principles of functioning in and cooperating e.g. with local authorities, institutions, and business partners A company lexpanding into a new market is usually exposed to greater operating costs (e.g. costs of promoting the company or its products) and costs of removing various barriers at the initial stage of oper-

from the need to get familiar with characteristic for a given country.

RISK RELATED TO LAUNCHING ISTING BUSINESS LINES OPERAT-ING IN THE CURRENT MARKETS

Apart from expanding into new markets in the geographical sense, the Group introduces new products/ services in the markets in which it currently operates. Examples include activities in the property development segment, in the area of commercial investments (PRS ting familiar with market princi- and those expected to happen in the market) and work on new products ples, operating costs - these and oth- future, on the Issuer's activities. from the modular house produc- er aspects may give rise to the risk Undoubtedly, these factors contion plant (e.g. nursing homes). of lower than expected profitability stitute a potential element of risk As a result, there is a number of of a new business. The instabil- Modul AB, Lindbäcks Bygg AB, Derity in the practical application of tax ome Husproduktion AB, HARMET laws may have a negative impact on OÜ, Scandibyg and Kodumaja AS. the operations and financial position of the Issuer's Group.

INTEREST RATE RISK

The Issuer has and will have financial liabilities dependent on current interest rates. In view of the above, the Issuer is exposed to the risk of interest rate fluctuations on its liabilities, particularly significant in the event of high volatility of market interest rates (e.g. under UNDER CONDITIONS OF STRONG conditions of significant uncertainty or crisis on financial markets). An **VELOPERS** increase in the level of interest rates will increase the cost of financing in Poland which the Group operates and thus reduce the performance profitability of the Issuer's Group. The aforementioned factor has a material adverse effect on the Issuer's development prospects, performance and ability to service its debt (including but not limited to bonds or loans).

RISK OF COMPETITION

are exposed to the risk of competi- of ongoing development projects. tion. The Group's financial performance may be materially affected by the pricing policy of its competition, which consists in offering general contracting services at lower margins. This may result in the the expansion of property developnecessity to lower the prices of offered products and services, lower margins and, consequently, lower financial performance of the Group. The main segment of the Issuer's activity, generating more than 50% of revenues, is residential and commercial construction business. In this basic segment of activity, the future. following entities are considered to be the main competitors of the pand into new markets, the Issuer Group: Erbud, Budimex, Skanska, Hochtief, Strabag, or Warbud.

In the property development segment, the Group competes mainly with developers implementing projects in Warsaw, Poznań and the ment of future projects (contracts) Tri-City. The property development may not necessarily be successful. market in Poland is highly competitive.

In the infrastructure segment, the Unibep Group competes for contracts with Budimex, Mota-Engil, Strabag, Polagua and Aldesa, among others.

In the energy and industrial construction segment, competitors include Erbud, Budimex, Polimex Energetyka, SBB and Doosan.

RISK OF **OPERATING COMPETITION FROM OTHER DE-**

The property development market in is highly competitive. Competition could have a material adverse effect on the Group's business, cash flows, financial position, financial performance or prospects, and in particular may lead to oversupply of residential properties if too many development projects are completed, or it could lead to an increase in the price of land for new projects, Activities of the UNIBEP Group which could affect the profitability

RISK OF FAILURE TO EXPAND THE GROUP'S ACTIVITIES INTO **OTHER MARKETS**

The Issuer's strategy provides for ment activity to new markets in the near future. The Group intends to pursue long-term value growth by increasing the scale of its operations in the Tri-City area. The Group also plans to develop the modular construction segment in the German and Swedish markets in the near

In the event of a decision to exhas carefully analysed potential projects (contracts) before deciding to implement the investment (contract); however, despite careful analysis, the identification and develop-In addition, with respect to development projects in locations which are Through Unihouse S.A., the Group new to the Group, the Issuer may

face more uncertainties as to the administrative, formal, operational and financial needs of development projects, which may translate, for example, into achieving lower margins on these projects than on the Warsaw or Poznań markets.

RRISK RELATED TO THE SALE OF FLATS AT REDUCED PRICES BY THE GROUP

The value of a residential property and the associated realisable selling price of the property depends primarily on the location, architectural design and standard of construction. If the attractiveness of the location of a property or project is incorrectly assessed, Group entities may not be able to sell the property at the previously assumed prices, or at all. The need to reduce the selling price in order to attract buyers implies a decrease in the margin achieved by the Issuer's Group, lower cash flows and a negative impact on the Group's financial position and business prospects.

RISK RELATED TO LIABILITY UNDER ENVIRONMENTAL PRO-**TECTION LAW**

In accordance with regulations governing environmental protection, entites using land where pollutants or detrimental transformations of natural topography appear may be obliged to remove them, bear the costs of reclamation of such areas or pay administrative penalties. The Group cannot exclude the possibility that Group companies will be obliged to pay compensation, administrative penalties or to perform land reclamation, should any pollution be detected on the land used by such companies. This may have a material adverse effect on the Group's operations, financial position, or financial performance. The Group performs technical and legal surveys of land for future projects in order to mitigate this risk. The occurrence of this risk may expose the Group to negative impacts, including an impact on its operating and financing activities, and on development prospects.

RISK RELATED TO ADAPTING THE ORGANISATION TO REOUIRE-MENTS COMPLIANT WITH ESG

vant ESG procedures and policies ture provided for in the develop- the date of posting revenues in the involves a process of identifying ment project, developers may face income statement, and at the same and mitigating ESG risks. The occurrence of such a risk may expose the Group to negative impacts on its operating and financing related to price increases in the most implementation of construction activities, and on its development prospects.

RISK OF AN INCREASE IN THE COSTS OF IMPLEMENTING CON-STRUCTION PROJECTS

To a large extent, financial performance and margins corresponding to development projects carried out by Group companies depend on the transaction prices of the purchased land properties. In the event of a significant increase in prices, the to the market situation, including in the level of margins on property development activity, which may have a significant negative impact on the development prospects, perfor- warfare) as well as by increases in mance and financial situation of the other production factors (increases Group. Accordingly, there is a risk in energy, fuel prices). of increased costs of construction projects, such as land prices, prices en into account when calculating replacement of unreliable subconof subcontractors or construction the contract price and negotiating tractors in contracts. In addition, materials, forced changes in design, with investors and subcontractors. the Group companies are secured land contamination, adjustment of This applies to actions taken in the in each contract with their subcon-

position.

PRICE RISK OF MATERIALS

commonly purchased construction projects and, consequently, the materials, such as steel and concrete, as well as timber, mineral wool and asphalt. The Group endeavours to guarantee price stability in its contracts with producers or material suppliers. In order to mitigate price tractors' remuneration, the risk risk, the Group continuously moni- of non-performance by contractors tors the prices of the most frequent- or subcontractors of their obligaly purchased construction materi- tions in this respect cannot be ruled als, and the contracts signed have out, thus giving rise to the Group parameters appropriately adjusted companies' liability as an investor. RISK RELATED TO PROHIBITED

The risk of recognising that the applied contract templates contain prohibited clauses is related to the 2007 on Competition and Consumer supply of energy resources, agricul- preceding the year in which the penas nickel, wood and neon gas, which in the Act are only examples. This provisions included in the register • of prohibited provisions should be interpreted broadly, and not only as the decision included in the rials, but executes contracts on an register, but also similar decisions should be considered as prohibitruptions. It should be borne in mind ed, according to the evolving line of that any significant increase in costs jurisprudence, in particular of the may adversely affect the profitabil- Supreme Court. The extent to which which in consequence directly leads ity of Unibep Group's projects and, a provision in a contract used by an to a reduction in the Group's perforconsequently, its financial position. entrepreneur is similar to a provi- mance in respect of a given contract, When planning future projects, the sion included in the register may and may have a negative impact on

provision is regarded as prohibited. Even if the position of the Group is that the contractual provisions used in its contracts signed with consumers are not similar to those listed in the register, there is a risk that the Office of Competition and Consumer Protection will classify a specific provision as prohibited and on this basis impose a penalty on the developer. The Group companies thoroughly analyse the contract templates they use in terms of the possibility of considering the provisions contained therein as prohibited contractual clauses infringing on the interests of consumers.

RISK RELATED TO THE CON-STRUCTION PROCESS

The main feature of construction activity is the necessity to engage significant resources, throughout the whole period of carrying out a project, until the handover of the facility to a counterparty. The services provided by the Group are based on individual agreements, drawn up based on existing conditions and using available procedures and technologies. Due to the length of the entire construction process, there may be various changes regarding the initial terms and conditions negotiated at the beginning of the process. The entire manufacture and construction process involves various types of risk. During this time, the following risks may occur:

- · on-going changes regarding design and construction, at almost every stage of the process,
- inadequate initial estimation of the project implementation costs,
- significant changes of costs during project implementation,
- errors in managing the entire construction process,
- errors related to the technical and technological solutions applied.

All of the aforementioned and other negative events may have an impact on the extension of the entire product manufacturing process causing an increase in costs and postponement of payments in time,

RISK RELATED TO INFRASTRUC-TURE

Completing a project depends on the provision of the required infrastructure, such as access to public roads, access to utilities, mapping out appropriate internal roads, etc. However, there are situations in which the provision of the necessary infrastructure depends on factors beyond the control of the Group icant increase in promotion costs, for reasons such as verification of a companies (e.g. providing access to but such actions cannot be ruled out contract award procedure by the the appropriate road or utility net- in the future. work often depends on a decision given by the relevant municipal or communal office). In some cases, the status of the roads required to carry out the investment may be unregulated, or unforeseen compli- out loans to finance construction cations may occur during the implementation of the project, resulting in delays and additional costs. It may also happen that the competent administrative authorities require the Group companies to liabilities. The Group is aware of the perform additional work related to fact that while loans taken out by during implementation, etc. (this is infrastructure, as part of the works special purpose vehicles established mainly applicable to the road conincluded in the carrying out of the by the Group are repaid in a timely struction sector). RISK RELATED TO THE PRO-LONGING OF ADMINISTRATIVE **PROCEEDINGS IN THE FIELD OF** RISK RELATED TO GRANTED PROPERTY DEVELOPMENT LAW AND CONSTRUCTION LAW

The Group's activities with respect need to obtain relevant administrative decisions and permits. The Group entities must in particular obtain decisions on development conditions for properties not covered by a local land development plan and building permits, which may require obtaining additional documents, such as approvals, opinions or consents from owners or holders of adjacent properties. In addition, there is a risk that an ongoing project may be stopped by the as a result of protests by the owners law.

Once the construction process is complete, an occupancy permit must be obtained. Iin some cases, a decision on the division of property must additionally be obtained in the course of the project, and certificates confirming the separation of premises must be obtained to enable their sale. Obtaining the relevant administrative acts is ofministrative proceedings, which creates a risk that it will not be possible to complete individual investment phases within the deadlines planned by the Group. In particular, a delay in issuing an occupancy permit decision by an authorised authority may postpone the dates of delivery of premises and signing of final notarial deeds with purchasers, which determine the date of recording revenue from the sale of flats and premises. These circumstances could have a material effect on the Issuer's business, cash flows, financial position, performance or business prospects.

RISK RELATED TO THE CYCLI-

The residential property mar- velopment projects. ket in Poland is characterised by a cyclical nature, whereby the number of new residential units delivered varies from year to year structure managers prior to entering tion in connection with projects depending on circumstances such into property purchase agreements. as general macroeconomic factors in Poland, demographic changes in given urban areas, availability of **CONSTRUCTION TECHNOLOGY OR** called upon to perform obligations financing and prices of existing residential units. Increased demand for residential properties tends to increase the margins achieved by developers and increase the number in the development market, e.g. of new development projects under- in terms of materials and compoway.
